## SUMMARY

---

Full-stack developer with hands-on experience in designing and developing dynamic web applications. Proficient in Angular on the front end, with solid back-end development skills using ASP.NET Core. Experienced in managing SQL Server databases and delivering efficient, scalable solutions. Strong analytical and problem-solving abilities, with a focus on clean code and user-centric design. Dedicated to continuous growth and contributing to high-performing development teams.

## SKILLS

---

### Technical Skills :

- Front-End : Angular, JavaScript, HTML, CSS, BootStrap
- Back-End : C# , .NET
- Database : SQL , My SQL
- Version Control : Git , GitHub

### Soft Skills :

- Collaboration
- Problem solving
- Fast learner

### • Certifications:

Web development in Step By Step Academy.

• Activities: Volunteer with " بهمثنا بنقدر " (voluntary-team in university), web development trainer in university with team.

## EXPERIENCE

---

### Training in Princess Sumaya University for Technology

Jun 2025 - Sep 2025

- Gained hands-on experience in building single-page applications (SPAs) using Angular, including component creation, routing, form handling, and service integration.
- Developed and consumed RESTful APIs using ASP.NET Core, with emphasis on clean architecture and security best practices.
- Worked on real-world scenarios involving front-end and back-end integration, data binding, and asynchronous operations.

## EDUCATION

---

### Bachelor of Computer Science

2021- 2024

World Islamic Science And Education University (Very Good)

## PROJECTS

---

### EDU TRACK

A school system that enables parents to track their children's grades, attendance, and homework, with role-based access built using Angular and .NET Core.

### Corz Academy

Graduation project, which is a learning management system (LMS) that provides services for course providers to upload courses, and services for people who want to develop themselves in a specific field.

### DYNFLOW

The DYNFLOW website features a streamlined interface that focuses solely on essential components for efficient waste management.
